

The LPFM broadcast service is a concern to my family. We listen to KLOVE in Denver, CO. KLOVE is an important part of our lives as we use it to obtain our news and local information. It is a very positive radio station, I even allow our young son to listen to the news because they present it in a "family friendly" way. There are many KLOVE listeners in our area, and no other stations with the same format. The service provided by KLOVE is very important to our area as it provides teenagers, young adults and families with a positive option for contemporary music. The lyrics of the songs are positive and do not encourage negative behavior. We need this kind of programming in our listening area. PLEASE do not expand the LPFM service in a way that will allow them to have priority over the KLOVE translator service. All the listeners financially support this station and hopefully that speaks volumes as to how important this station is to us. Thank you for your consideration of my comments.
